

The WISCONSIN NO-CALL LIST works. The federal no-call list doesn't stop anything! When we leave a company or service it is for good reason. They should not be permitted to 'harass' us for up to a year after we've said 'no thank you'. If we have to go back to getting all those calls at all hours of the day or night...we'll have to get rid of our 'land phone'. It's that annoying.
